

Flu Season Is Still Here- Have You Gotten Your Flu Shot Yet?

If not, there's still time! Flu season is already here but the peak will not arrive for another month. If you haven't already done so, get your flu shot now! A limited number of internationally produced flu shots are now available again at our Gleneagles Medical & Surgical Center in Tomorrow Square and Jin Qiao Medical & Dental Center by appointment only.

Remember, the flu virus can sometimes be serious. As the flu virus is constantly changing, the composition of the annual flu shot is changed every year to match the currently circulating virus. The single best way to prevent the flu is to get vaccinated each year.

According to the US CDC, the annual flu shot can reduce the chances of getting the flu by 70-90% in healthy adults, thereby greatly reducing both workplace and school absenteeism.

Schedule an appointment today as supplies are limited!

You can schedule an appointment to receive the flu shot by calling our 24-hour Appointment Service Center at [6445 5999](tel:64455999) or through our website, www.parkwayhealth.cn. For any questions, please email us at flu@parkwayhealth.cn.
