

Ayi Health Screening Packages

Expatriate life is a hustling bustling never ending round of nights out and business meetings. For those of us with a family none of this would be possible without the in-house, affordable help provided by the Ayi.

If you've been lucky enough to find a good Ayi you should grab onto her with both hands and never let her go! That is until you are taking your final trip to Pudong airport. The Ayi is an important member of your family and as expats we need to provide the best care possible for our loved ones. Right now ParkwayHealth is offering both a basic and an advanced Ayi Health Screening Packages at our Health Screening Center on the 3rd floor of the Shanghai Centre.

Communicable diseases spread easily when we share our homes with others. For just 1,200 RMB you can put your mind at rest and make sure that your Ayi is healthy and ready to offer your family the safest care possible. Reports are available in Chinese and English.
